21 June 2016

### **Port releases revised tariff schedule for 2016/17.**

GeelongPort has announced increases to tariff rates applying to customers using the GeelongPort assets for the year commencing 1 July 2016. The increases vary with the majority of charges being increased by a maximum of 3%.

Prices have increased across the range of services provided, reflecting the costs of running these sites.

GeelongPort look forward to working with all customers to minimise long term costs and maximise port throughput.
