EFFECTIVE FROM 1 JULY 2023

Schedule of Port Charges

COMMON USER BERTH HIRE CHARGES

Vessels must not enter the port until an *Application for Berth Hire* agreement, signed by the shipping line, ship's agent or vessel owner, has been completed and sent to GeelongPort.

Vessels requiring a Refinery berth must provide – through the appropriate agent – a statement that the vessel has been vetted via a 'ship quality assurance system' and is not considered a maritime risk.

A time-based fee is charged for berths for loading or discharging specialised cargo and lay-up, or other purpose approved by GeelongPort.

The charge is calculated on the total time a vessel is berthed, from the first line on arrival to the last line on departure, as recorded by GeelongPort. The cost is calculated per hour or part thereof.

As a condition of entry to the Port of Geelong:

- all Australian and internationally registered vessels on or returning from an international voyage using the Port of Geelong as first port of call in Australia; and
- all Australian and internationally registered vessels that have been on the Australian coast for less than 21 days before berthing at the Port of Geelong must pay a flat fee of \$1,510.43 per visit, unless they have a certified shipboard waste processing plant. This is in addition to the hourly berth tariff.

EXEMPTIONS

- Naval vessels (Australian and foreign)
- Cadet and sail training vessels (not operating for a profit)
- Vessels belonging to registered charities

COMMON USER

Vessels must not enter the port until an *Application for Facility Hire* agreement, signed by the agent, stevedore or a shipper approved by the GeelongPort, has been received.

Facility hire is charged for a site at which stevedoring operations may be undertaken.

Facility hire is levied per revenue tonne (see note below). The fee is levied on the cargo owner, generally via the ship's agent.

The facility hirer must provide documentary evidence to GeelongPort of the start and completion times of cargo operations and the cargo tonnage within 48 hours, in accordance with the vessel's Statement of Fact.

Note: A revenue tonne is a mass of 1,000 kilograms or a volume of 1 cubic metre or 1 kilolitre, whichever gives the largest number of units of cargo quantity.

EXEMPTIONS

- Vessels which do not carry out a cargo transfer
- Vessels belonging to registered charities
- Naval vessels (Australian and foreign)
- Cadet and sail training vessels (not operating for a profit)

Schedule of Port Charges

PORT SECURITY CHARGE

Under the *Maritime Transport & Offshore Facilities Security Act 2003*, GeelongPort is responsible for maritime security of common user berths at Lascelles Wharf and Corio Quay. This charge is an hourly rate and covers the time a vessel is berthed.

TELEPHONE

All vessels berthed at GeelongPort facilities must have a phone connected for emergency purposes. INMARSAT mobile phones are not acceptable.

FRESH WATER

All vessels, excluding naval and rig tenders, are restricted to 100 tonnes of fresh water. GeelongPort may agree to supply more under exceptional circumstances.

CLEANING OF THE WHARF OR PORT BUILDINGS

Cleaning will be the responsibility of the stevedore/shipper. GeelongPort will provide the wharf/buildings in a clean condition and expects the facilities to be returned in the same state. Should GeelongPort need to clean the berth/building, all costs will be charged to the user.

GeelongPort makes no warranty about the suitability of the facilities or equipment for use.

SECURITY CHECKS OF CARGO & ACCESS TO THE PORT

Under a change to the *Customs Act 1901*, it is the Ports responsibility as the Cargo Terminal Operator (CTO), to monitor the movement of truck traffic and their cargo and ensure the physical security of the terminal and cargo.

The purpose for the change to the Act is to strengthen the cargo supply chain against criminal infiltration.

AREA HIRE

Area hire applies for a cargo shed or common user area for storing cargo discharged from, or to be loaded onto, a vessel. GeelongPort does not warrant that the area is suitable for the use. Any arrangement will be subject to acceptance of *GeelongPort Standards & Procedures*.

A cargo shed or open storage will not be allocated unless an *Application for Storage* has been completed and sent to GeelongPort.

EQUIPMENT HIRE

Before hiring GeelongPort equipment, an *Application for Equipment Hire* form must be completed and submitted to the Operations Team Leader. This form includes a condition report and acceptance for any damage. Hired equipment will be subject to *GeelongPort Standards & Procedures*.

All hired equipment must be thoroughly cleaned after use. If equipment is not returned in a clean state, a fee will be charged.

WEIGHBRIDGE HIRE – LASCELLES WHARF

The weighbridge is charged per tonne of cargo. This includes use of the weighbridge, but excludes a clerk to manage trucking movements and any specific client requirements.
