GeelongPort Tops Global Sustainability Benchmark with Perfect Score

GeelongPort has achieved a global milestone, earning a perfect score of 100/100 in the 2025 GRESB Infrastructure Asset Assessment, ranking first among 652 organisations worldwide.

This marks the fifth consecutive year GeelongPort has earned a prestigious 5-Star GRESB Rating, and the first time it has achieved a perfect score and secured the top global ranking.

GeelongPort also outperformed eight peers in the Bulk Goods category, reinforcing its position as a global sustainability leader and its aspiration to be Australia's most sustainable port.

GRESB, previously known as the Global Real Estate Sustainability Benchmark, is the world's leading ESG benchmark for real assets, used by investors and asset managers globally to assess sustainability performance. Only the top 20% of participants receive a 5-Star rating, making GeelongPort's achievement exceptional.

In addition to its perfect score, GeelongPort has been named a Sector Leader by GRESB, an accolade reserved for organisations that set the pace for the industry through strong governance, operational excellence, and long-term value creation.

GRESB assessments are aligned with international reporting frameworks and emerging regulations, helping investors and asset managers benchmark ESG performance and manage risk in a rapidly changing market.

In 2025, participation remained strong, with 186 asset managers completing 805 assessments across Fund, Asset, and Development Asset categories.

GRESB data is used by hundreds of capital providers and thousands of asset managers globally to benchmark investments, manage risk, and identify opportunities as the industry transitions to a more sustainable future.

Quotes Attributable to GeelongPort Chief Executive Officer, Brett Winter:

"Achieving a perfect score and GeelongPort ranking first globally is an extraordinary accomplishment."

"The results demonstrate the dedication of our entire team and the strength of our systems, processes and practices to embed sustainability into everything we do."

This recognition shows we are on the right track to becoming Australia's most sustainable port."

About GeelongPort

GeelongPort is the second largest port in Victoria and is a major driver of Victoria's economy, handling more than one-quarter of Victoria's total port trade, generating more than 1,800 jobs across the state and managing in excess of \$7 billion of trade each year.

We support important sectors including agriculture, construction, energy, and tourism, and manage more than \$10 billion of trade and 13 million tonnes of cargo annually. With eyes on the future, we are investing in opportunities to support the growth of our region.
